Only Personal Letters by King George and the Czar to the German Emperor Made Peace Possible During Strained Relations Last Week—Gray Blamed for Bureaucratic Methods.

(Western Associated Press.) London, Nov. 20.—Sensational confirmation is coming from Berlin of the recent reported negotiations about Morocco, Anglo-German relations being strained so far that seemed inevitable in the House of Commons next Thursday the British foreign secretary, Sir Edward Grey, will open a discussion on Great Britain's foreign relations, mainly to clear up the misunderstanding with Germany. The episode would have been all over and sunk in oblivion but for the attacks in England on the British policy in Morocco, the government's radical supporters of the British policy regarding the Morocco affair by Grey's explanation.

CAPTAIN OF THE NIBE FREED FROM BLAME

In Statement Before Court Martial Declares Disaster May Have Been Due to Uncharted Rock—Judgment Handed Out Saturday

(Western Associated Press.) Halifax, N. S., Nov. 20.—The court martial in the Nobe yesterday concluded its session with a verdict of acquittal for the captain of the ship, Commander W. B. MacDonald, who was charged with the sinking of the Nobe. The court found that the captain was not responsible for the disaster, which occurred on October 19th, not having heard that any ship had been seen by which it could have been avoided, and realizing that it was a case of emergency. Captain's Statement.
"At 9:30 after getting away from Yarmouth, I rounded Birdrock buoy, headed east, and saw the Nobe S.S. The night was very clear. Up to this time no abnormal light had been noticed and no danger was apparent to lead me to suppose that any corrections other than those allowed for in the correct one and that had there not been an abnormal light, the ship would have made the southwest ledge buoy even in the worst weather. About 1915 p.m., I gave my night order back to the officer of the watch in the forebridge and then stated on to him that the ship was making the southwest ledge buoy and to see that the ship was not set into the rocks."

ANOTHER MEXICAN REVOLT PLOTTED

(Western Associated Press.) Laredo, Texas, Nov. 20.—Federal authorities today seized a quantity of ammunition and arms said to be a part of a store provided by persons expected to lead a revolution against the Mexican government in Mexico, the officers were led to the cache by Juan Heredia, shortly after he was arrested as the result of a Federal indictment returned at the same time as was the one against General Reyes. Mexico was formerly a captain and the arrest is the fifth in connection with the alleged revolution. General Reyes was arrested in San Antonio, yesterday and three others said to be implicated were taken into custody. Mexico is said to have made a confession regarding the alleged revolution, but alleged to have been a General Reyes, the officials say. Mexico told them he has been engaged in securing horses, arms and ammunition, a considerable of which has been sent to Mexico.

YOUNG MEN WHO TOOK STRIP OF TICKETS FROM C.P.R. COM. MITTLED FOR TRIAL

Edwin Sessmith, age 28, and Harry Marshall, age 20, former employees of the C.P.R., were committed for trial by Magistrate Gowan this morning on a charge of having stolen a book of tickets from the local agency. A man named Gordon of the W. H. Mills real estate office, testified that Sessmith came to him about two weeks ago and after talking on general subjects for a while, asked Gordon if he had any new tickets for sale. As he had some party tickets for sale, Gordon replied that he thought he might be able to dispose of them, and Sessmith left seven tickets from Strathcona to Vancouver which were to be sold for \$21.40 each. Three were sold. The C.P.R. auditor identified the tickets and testified that they were part of a series which were in the local office when he commenced the audit last month. Detective Simpson gave evidence of a confession made to him by Sessmith to the effect that he and Marshall had taken a book of tickets from the C.P.R. office on Saturday morning, two weeks ago. All the tickets they took up in a laundry at the Savoy hotel, with the exception of one, seven of which were given to Mr. Gordon for sale. Marshall was with Sessmith at the time of the confession and did not make any denial. Detective Wright corroborated Detective Simpson's statement by testifying that he saw a bell boy at the Alberta hotel (testified that he bought one of the tickets at Mills' office, and that he interviewed both persons after being warned that anything they might say would be used in evidence against them, both Sessmith and Marshall made a confession to the effect that they stole the tickets, and destroyed all but nine at the Savoy hotel. They received the money from the sale of four. Marshall confessed that he had ordered a stamp "Vancouver" from the Edmonton stamp company, and that he had used the stamp "Strathcona" from the C.P.R. Sessmith told of having advertised in the local papers for necessary to borrow coal. The replies were so numerous that he had to stop the advertisements.

No evidence was put in for the defense. Attorney Robertson, admitting that the evidence was against his client, J. W. Russell presented the C.P.R. and H. Robertson the necessary.

CITY HALL NOTES

When power house charges are supplied, the various city departments using power, either steam or electricity, will be able to close their books and power accounts are being done.

COAL SHOULD BE STORED BY CITY.
TO AVOID POSSIBILITY OF FAMINE AT POWER PLANT SAYS
That the city should keep, buy and store about a thousand tons of steam coal to be kept on hand for any emergency that might arise, is the opinion expressed by Alder Mayor Thomas Bellamy at the meeting of the city commissioners this morning. Commissioner S. Gandy was of the same opinion. Mr. Gandy agreed that a thousand tons of steam coal might well be bought by the city to be used in case for any reason whatsoever the power plant runs out of fuel. And in the event of a fuel famine, which Mr. Gandy considers almost an impossibility here, the city might supply coal to citizens.

CZAR'S DAUGHTER WILL MARRY SOON

GRAND DUCHESS IS FORMALLY BAPTIZED TO PRINCE BORIS OF BULGARIA

(Western Associated Press.)
St. Petersburg, Nov. 20.—Formal announcement was made today of the engagement of the Grand Duchess Olga, eldest of the four daughters of the czar and zarina of Russia, to Prince Boris of Bulgaria. Today was chosen for the official announcement because it is the sixteenth birthday of the grand duchess.

Olga is an uncommonly pretty girl and is devotedly attached to her little brother, the Grand Duke Alexis, the seven-year-old heir to the throne of the Great White Czar.

Prince Boris of Bulgaria is but little older than his fiancée, as he will not be seventeen until next January. He will succeed to the Bulgarian throne upon the death of his father, Czar Ferdinand. The alliance is considered here to be a master stroke on the part of the clever Ferdinand, who owes the independence of his country to the influence of Russia.

No definite date has been set for the marriage ceremony, which is expected to be the most brilliant of its kind Europe has seen in many years.

INTERESTING ROMANCE OF ENGLISH PEERAGE

(Orlando Daily Service.)
London, Nov. 20.—An interesting chapter in a Pezrago romance is provided by the will of the late Countess of Sheldone, one of the greatest landowners in the kingdom, who died on October 6th.

The countess's son was the eighth earl, and when he died, unmarried, at the age of thirty-two, he left all he possessed to his mother. As the estate was not entailed his successor to the title was deprived of all the proprietary rights to the estates and the annual revenue of \$100,000 then accruing from them; in fact he was left almost penniless.

By the will of the late countess, however, the estates are now to follow the title again and are left absolutely in trust under a body of trustees, which includes the Mackintoshes of Mackintosh, Mr. Duff of Hutton, Sir Reginald Macleod, Captain Baird, and others. The present earl may live at one or both of the houses that will be kept up for him, and an addition is made to the income settled on him. His is no doubt arranged with a view of clearing off the remaining debt on the properties. On his death the estates will be handed over to his successor.

When the eighth earl died he was succeeded by his uncle, who was succeeded in turn by his son Francis. This earl—the tenth—lived in humble circumstances in New Zealand. The present peer—the eleventh—the son of the tenth earl, was born in New Zealand, but is now resident in Ireland.

SOCIALISTS AFTER COMPER'S SCALP

ELECTRICAL WORKERS' DISPUTE WILL BE FOUGHT OUT AT A. F. OF L. CONVENTION

(Western Associated Press.)
Atlanta, Ga., Nov. 20.—Beginning today the American Federation of Labor will get down to the real work of the annual convention now in session here. Several of the more important committees are ready to report.

One of the first jurisdictional controversies to come before the federation will be the Electrical Workers' fight of several years standing. The feud factions, which claim about 85 per cent of the workers of the country, is fighting against the recognition by the convention of the McNulty faction. It is declared that socialist delegates, several of whom are included in the field delegation, will take advantage of this opportunity of starting their fight against President Gumpers and the present regime on the floor of the convention.

(Western Associated Press.)
Rudby, N. D., Nov. 20.—The Great Northern fast mail train, number 25, eastbound, collided head on with a eastbound train six miles from here early yesterday morning, killing the engineer and fireman of the passenger train and injuring three others.

The dead are: Isaac Wright, engineer, Devil's Lake, N. D.; Michael O'Leary, fireman, Devil's Lake, N. D. The injured are: R. G. Wynn, conductor, Minot, N.D., bruised; Dan Healy, mail clerk, Devil's Lake, N.D., head bruised; Ned Price, express messenger, brakeman, legs injured; Jenkins, mail clerk, injured. Ned Price, express messenger, not expected to live.

The freight engine crew saved their lives by throwing on the brakes, bringing the train to a standstill and jumping. The mail train crew had no warning of the impending danger. It is said that the wreck was due to the freight crew's failure to obey orders to take a siding. It is said the conductor thought he could make the succeeding station before the express train arrived.

STEEL INVESTIGATION RESUMED.

Washington, D. C., Nov. 20.—The select committee of the House of Representatives that is investigating the United States Steel corporation resumed its sessions in the capital today. It is expected the first inquiry will be directed toward the ore supply of the United States, of which it is alleged the Steel corporation virtually has had a monopoly, and the rates charged for the transportation of ore by the steel trust roads in Minnesota. While the committee has not made public its list of prospective witnesses, it has been understood for some time that Carnegie, J. Pierpont Morgan and several other of the most important men in the financial world will be summoned to testify.

A black cat with a dim white strip on his face, poked his head out of the front door at Overland Park, Kan., on Monday, and was greeted by a young boy who snuggled affectionately against the feline. The cat, a male named "Buddy," is the son of a cat who was a house cat for a long time, and a black and white cat who was a street cat for a long time. The boy, who is 10 years old, has been training the cat since he was 3 years old. The cat is now 6 years old and is still being trained by the boy. The boy's father, who is a veterinarian, says that the cat is a very good cat and that he is a very good boy. The cat is a very good cat and the boy is a very good boy.

The case of Ellis against Pfeifferman and Grideroff, alleging breach of contract, which came before Chief Justice Harvey in the supreme court on Saturday was decided in favor of the plaintiff.

ADMIRAL SCHLEY'S STORY.

A man died the other day, and with his death passed America's most notable naval hero—popular because championed by the people, though universally denied, the full fruits of his long and brilliant service.

This man was Admiral Schley, hero of Santiago, one of the great sea-fighters of history. Shortly before his death Admiral Schley completed for the Cosmopolitan, a series of articles on his personal recollections of his forty-five years in the navy. He was no longer to do this for there was at least one old story that an autobiography must be open. But we urged upon him the fact that nearly four million readers would read each installment of his story, and that most of these readers believed, with Admiral Schley, that the men who stood on the deck of the Brooklyn that July Sunday, '98, were entitled to the story of that great victory. So he consented to do it. Not in the cut and dried way but unveiling his secret soul as he had never done before. The first installment of the autobiography, and the life story of a man whose while in the Christ's number. IMPORTANT TOPICS TO BE DISCUSSED

BILLS TO BE BROUGHT BEFORE HOUSE WILL BE TAKEN UP BY TRADE COUNCIL.

The trades and labor council at their regular meeting tonight will enter into discussion on the proposed legislation effecting conditions of labor in Alberta that will be brought before the pending session of the provincial legislature, by the Alberta executive of the Dominion trades and labor organization members of which are Syndicate of Lechere, J. T. Hughes of Edmonton, George Howell of Calgary and Donald McLean, former member of the provincial legislature and a representative of the miners.

An effort is to be made by the trades and labor organization to secure an amendment to the workmen's compensation act which will make it possible for a family living in another province to secure compensation for the death of its supporter while at work in Alberta.

A case involving this point is now pending in British Columbia. Compensation for the death of a miner in British Columbia is being asked by his family which was living in Alberta at the time his death occurred.

The case was decided by a Vancouver judge in favor of the mine owners, but with the aid of the labor organization it is being appealed in the higher courts.

C.P.R. WILL BUILD SIX STOREY BLOCK

Plans are being prepared by the C.P.R. for the erection on the site of their present Jasper avenue office and the property adjoining them on the west, of a six storey modern fire proof business block with 100 foot frontage on Jasper.

It is understood that construction work on the building will get ahead next year. The building will be the largest and most modern business block in Edmonton.

With a fifty foot frontage on the west was purchased recently by the C.P.R. from the Northern Growth Bank. This week the city office staff will move from their present quarters to the new building which they will occupy during the winter months.

NECROLOGIC

Norman Morrow.
Norman Morrow, aged 18, son of Mr. and Mrs. T. B. Morrow, Strathcona died at the home of his parents, early Sunday morning, the cause being an affection of the heart from which he had been suffering for some time. Although he had been afflicted with heart trouble for some time the disease was not considered serious until a week ago when he commenced to have fainting spells which resulted at 8 o'clock in his death. He was born in Clifton, Ireland, and came to this country with his parents some seven years ago, and during his residence on the outskirts of Strathcona he had a large number of friends through his sunny disposition. His funeral will take place tomorrow afternoon at 2 o'clock from the family residence, Mye road, Strathcona, to the Edmonton cemetery.

COSMOPOLITAN AND DICKENS.

Charles Dickens is still the "best seller." Publishers don't argue but go on over his books—their only order a new carload of paper, oil and presses, and let them speed on. And it has been forty years since, merrily when the yard was filled with scribbles and the breath of syntax was heavy in the air, the great author followed little Nell. Now that the century of his birth (February 7, 1812) approaches, and everybody is thinking of Dickens. We have several articles which will tell many things about him that have hitherto been unknown. In the January Cosmopolitan, his son, Alfred Tennyson Dickens, will tell you some of his own personal recollections of the great novelist. Later, probably in February, Mary Angela Dickens, his granddaughter, will give an intimate view of Dickens, as she remembers him. In fact, in these and other articles on Dickens which will follow—fully annotated—of course—we shall aim to give you a more vivid picture than has yet been published of the house—the home—side of the great narrator, written by those who knew him best. Read the articles which will surely arouse a new interest in the old author in your library. Subscriptions to Cosmopolitan will be accepted until December 31, at the special low rate to Canada of \$1.50. Cosmopolitan Agency Box 851, Winnipeg.

NOTHING CHEERFUL IN SACRED BOOKS

CHINESE WORKS PREDICT TERRIBLE SLAUGHTER IN MANY NATIONS DURING NEXT 20 YEARS

The sacred books of the Chinese people that are read with fear and reverence by millions of citizens of the Celestial empire, predict terrible slaughter among the Chinese, and, in fact, among all the nations of the world, within the next twenty years, according to the Chinese, a man who keeps on Jasper avenue, between Seventh and Eighth streets, one of those quaint little joints where you can purchase an egg sandwich, a package of old China cigarettes, a bottle of pop or five cents' worth of tobacco, as the fancy takes you.

John Ahgal, has been in Canada since 1892. First in Victoria, then as cook, miner and general laborer in the north, he is now a laundry keeper at Fort Saskatchewan and finally as the proprietor of a little restaurant on Jasper West in Edmonton. He has had good fortune and has been knocked around in all sorts of out of the way places, but away back in his old China chest he keeps those sacred books, which prophesy that not far from the time of his death, the world will be ruled by the rulers and the people of ancient China. In the sacred books that John has preserved while he has been all the time answering the call of the wanderlust, the words are metaphorical and can be interpreted as could the occult sayings of the oracles of ancient Greece—with many meanings of opposite nature, but by the moderns in the "form-fite" style, looking every track that go up and down from left to right across the lettered and printed words, and the great and carefully worn volumes this particular Chinaman has read very many times, he is sure that a great deal of trouble before the quarrelsome and land hungry people finally settle down to an industrious and millennial peace.

John Ahgal declares that before war shall be ended is to be in the year 400,000,000 of the people of the world will have been put out of every hundred in other parts of the world will also perish in war, and he tells him that this will happen within the next 20 years.
